Dysnatremia: What Every Pediatrician Should Know

Dr. Naji Al Dhawi

PGY-6 Pediatric Nephrology

Objectives:

1. Recognize the clinical manifestations and underlying causes of hyponatremia and hypernatremia in pediatric patients.
2. Interpret sodium abnormalities using a systematic diagnostic approach based on volume status and serum/urine osmolality.
3. Outline a practical approach to the diagnosis and management of Syndrome of Inappropriate Antidiuretic Hormone Secretion (SIADH) in children.
